

KHA RAZZLE DAZZLE SUMMER ENRICHMENT PROGRAM 2014

Thank you for choosing Kimber Hills Academy's Summer Enrichment Program as a summertime experience for your child. The Enrichment Program is designed to provide hands-on experiences for your child in multiple areas of academics. Each student will be placed within an age-appropriate group and rotate throughout the week into each academic class. During the course of the week, each student will have math, science, language arts and computer. Art, music and drama instruction will be offered daily after lunch for each student as well as large group recreational games. Please note that students do not pick which class they will attend since they will have all classes throughout the week. The duration for each academic class will last for the entire day within three class modules. As an example, on Monday your student may be placed in math with their age-appropriate group. They will stay in that math class for the entire day and then the next day will rotate to another academic class such as science.

HERE IS AN EXAMPLE OF OUR DAILY PROGRAM STRUCTURE:

7:30-9:00am	EDC available to those with 1-week coupon
9:00-9:30am	Singing and Bible study

Summer Enrichment Program	July 28-Aug 1
VBS (EDC after VBS \$40/day)	Aug 4-8

MUSIC INSTRUCTION

Music instruction will be given to all grade levels. Each student will have an opportunity to sing and play instruments as they explore music and perform as a large group.

COMPUTER INSTRUCTION

Computer instruction will be offered daily. Depending on skill level, students will learn everything from basic word processing skills to website design. Computers will be dismantled and then reassembled by the students as they explore the inner workings of a computer.

MORE THAN NUMBERS

Students will continue building a foundation in mathematical concepts for advancement into the next grade level. A fun-filled, hands-on approach that will make math maniacs of even the most reluctant problem solvers and those who are enthusiastic about math will find plenty of challenge. Hands-on activities as well as individualized instruction will take place in each class.

LANGUAGE ARTS INSTRUCTION

Explore language arts through writing, reading, grammar, drama and artistic expression. Students will use different modalities to enhance the language arts experience and gain a better understanding.

SCIENCE LAB

The scientific process will be studied in preparation for the development of Science Fair projects. Laboratory assignments as well as hands-on instruction will be given to all age levels as they have fun discovering what makes things tick.

ART & RECREATION

Develop the artist within you! Learn more about famous artists and create your own style of expression. Also run, jump and play games that develop strategies and teamwork. Recreation not only helps develop the body, but also strengthens the mind.
